

CLAIMS

What is claimed is:

1. A method of producing guitar picks comprising:
 - (a) providing an identification card;
 - (b) providing a punch; and
 - (c) punching out a guitar pick from said identification card using said punch.
2. The method as described in claim 1 wherein said identification card is composed of plastic.
3. The method as described in claim 1 wherein said punch further comprises a holding section and a die section.
4. The method as described in claim 1 wherein said identification card is a credit card.
5. The method as described in claim 1 wherein said identification card is a driver's license.
6. A method of producing a guitar pick with a hologram upon one side comprising:
 - (a) providing an identification card further comprising a hologram;
 - (b) providing a punch with a die-cutting assembly;
 - (c) positioning said identification card so that the hologram is aligned with said die cutting assembly of said punch;
 - (d) punching a guitar pick out of said identification card, wherein said guitar pick comprises said hologram.
7. The method as described in claim 6 wherein said identification card is composed of plastic.
8. The method as described in claim 6 wherein said identification card is a credit card.

9. The method as described in claim 6 wherein said identification card is a driver's license.
10. The method as described in claim 6 wherein said punch further comprises a first handle coupled to a second handle wherein said coupling allows the handles to pivot providing a mechanical advantage.
11. The method as described in claim 10 wherein said die-cutting assembly further comprises a holding portion coupled to said first handle and a die portion coupled to said second handle.
